

## Data Sheet

### Three Minute Smoke SC843 (Igniter Cord or Pull wire)

#### Function

Three minute smoke is specifically designed for safe simulation of smoke environments. The smoke grenade can be used in both indoor and outdoor environments to simulate fires for training purposes or as a smoke screen for war games. This smoke generator has also been used to test HVAC systems for proper air flow. Having low toxicity, three minute smoke is favorable in many applications. Two options for ignition are available, which are: igniter cord (lit by a flame) or pull wire (friction ignition).

#### Operational Advantages

- Robust Design for rough handling
- Functions over a broad temperature range: -18 to 25 degrees C
- Generates very low toxicity smoke

#### Product Specifications

Length		14.6 cm
Diameter		4.8 cm
Weight		164 g
Ignition	Type	Igniter Cord or Pull Wire
	Delay	3 – 6 seconds
Packaging	number/carton	70 (7 bags of 10)
	Carton Type	fibreboard
	Carton Dimensions	44.8 x 29.8 x 22.9 cm
	Carton Volume	0.031 m <sup>3</sup>
	Gross Weight	16.4 kg
Explosive Classification		UN 0431 1.4 G
