Data Sheet

Two Minute Smoke SC842

Function

Two minute smoke is specifically designed for safe simulation of smoke environments. The smoke grenade can be used in both indoor and outdoor environments to simulate fires for training purposes or as a smoke screen for war games. This smoke generator has also been used to test HVAC systems for proper air flow. Having low toxicity, two minute smoke is favorable in many applications.

Operational Advantages

- Robust Design for rough handling
- Functions over a broad temperature range: -18 to 25 degrees C
- Generates very low toxicity smoke
