

Data Sheet

Diver Recall SC81

Function

The Diver Recall is used in water and is activated using a striker igniter. This is used in diving missions as an indicator of when the divers must resurface. When used the Diver Recall produces a loud report and a visible flash underwater. When in the water the Diver Recall will begin to sink to ensure deeper level alarming.

Operational Advantages

- Functions underwater
- Robust design for rough handling
- Wide temperature range: -18°C to 32°C
- Sinks to ensure divers at deeper levels are alerted

Product Specifications

Length		21.3 cm
Diameter		3.2 cm
Weight		203 g
Ignition	Type	Igniter Cord
	Delay	6 – 8 seconds
Audibility		100 to 110 decibels at distance of 6 metres
Luminosity		Visible at 22.8 metres in daylight
Packaging	number/carton	50 per crate, 10 per carton
	Carton Type	fibreboard
	Carton Dimensions	35.6 x 30.5 x 16.5 cm
	Carton Volume	0.018m ³
	Gross Weight	18.2 kg
Decent rate		0.5 to 0.8 m/s
Explosive Classification		UN 0430
		1.3 G
NATO Stock Number (NSN)		1370-21-884-6799
