

Data Sheet

THUNDERFLASH C1A1

Function

The Thunderflash is specifically designed for battlefield training exercises. It simulates battle noise by generating a loud report accompanied by a visible flash. Striker ignition and delay allows user to ignite and throw into position before the report and flash occur.

Operational Advantages

- Design incorporates hollow tube handle for safety in event of protracted delay in hand-throwing of unit
- Robust Design for rough handling
- Functions over a broad temperature range: -18 to 32 degrees C
- Generates 100 dB report, measured 6 metres from source

Product Specifications

Length		21.3 cm
Diameter		3.3 cm
Weight		90 g
Ignition	Type	Friction, striker
	Delay	6 – 8 seconds
Packaging	number/carton	100
	Carton Type	C13 Ammunition (corrugated fibreboard)
	Carton Dimensions	43.8 x 34.9 x 17.0 cm
	Carton Volume	0.026 m ³
	Gross Weight	8.04 kg
Inner		10 units per C9 Ammunition Carton (in heat sealed PE bag)
Explosive Classification		UN 0336 1.3 G
NATO Stock Number (NSN)		1370-21-108-8023-5011
