

SC-809 THUNDERFLASH

SC-809 THUNDERFLASH

The HFI Pyrotechnics proprietary Thunderflash is designed for battlefield training exercises. It simulates battle conditions by generating a loud report and a visible flash. Manual striker ignition and delay allows the user to ignite and throw the Thunderflash into position before the report and flash.

FEATURES AND BENEFITS

- ✓ Low shrapnel design
- ✓ Improved compositional performance in sound and flash output
- ✓ Standard training product
